

Wollondilly Anglican College

MyTech minimum device specifications – September 2020

Minimum requirements for BYOD devices are as follows

Minimum Screen size	10.8 inch
Windows / Mac laptop minimum Memory	4GB, preferably 8GB RAM
Windows / Mac hard disk minimum storage	120GB
Minimum Screen resolution	1024 x 768
Connectivity	Wifi: 802.11 N or AC. Ports: at least 1 x USB Type A (or adapter to suit)
Audio/Video	Headphone and Microphone Ports
Mobile Data Connectivity	Not allowed - SIM card must be removed at WAC
Keyboard	Full QWERTY Keyboard suitable for touch-typing
Battery	Minimum expected Battery Life of 6 hours
Operating System	The device should be running a recent current of Microsoft Windows or Apple macOS. Windows must be Home or Pro version.
Bag / Case	An appropriate, robust carry case to suit the shape/size of the device

Examples of devices that are NOT suitable

- Smartphone of any kind
- Older Windows laptop running non-supported version of Windows
- Android tablet, or Apple iPad
- Chromebook
- Device running a limited version of Windows (eg. Windows RT, Windows 10S)
- Any older device that doesn't meet the minimum requirements
- Device with less than 6 hours battery life

Examples of devices that ARE suitable

- Windows laptop running a currently supported version of Windows (i.e HP, Acer, Asus, Dell, Toshiba etc)
- Apple Macbook / Air / Pro laptop a currently supported version of macOS
- Microsoft Surface Pro
- If students already have a device that meets the minimum specifications, then there is no need to purchase another device.
